

In Memory
Jim Crawford AO

This double DVD set is dedicated to the memory of Jim Crawford AO (1922 - 1999).

Jim was Chairman and Managing Director of the CMV Group. He was a modern pioneer in road transport and was responsible for many innovative transport related initiatives.

Jim's energetic support of the rescue and restoration of the Leyland Badger and the subsequent Birdsville to Birdwood Mail Run re-enactment was well known.

The dedication of this DVD to Jim Crawford is a fitting tribute to a man of vision and someone who had a profound sense of history in the making and our role in it.

Recognising the deeds and skills of our more recent pioneers, this DVD release was made possible by the generous support of the CMV Foundation.

In 1953, the founder of the CMV Group Mr. Sidney Crawford started the CMV Foundation having allocated CMV shares to the foundation. The dividends received into the CMV Foundation are distributed into the community.
